A very attractive location

Migration/ Demography

- Growth of population in GE for 2023 +6'577 or +1.3% (+1.1% in 2022)
- Immigration expected to remain high

Capital Markets

- Lowered inflation rate in CH
- Further interest rate cuts expected during 2024

Real Estate Market in the Lake Geneva region

Rental values mirrors supply scarcity in the region

- The lake Geneva region remains one of the most expensive area in CH
- Even peripheral areas within the region (e.g. Gros de Vaud, Chablais) shows above average rental values
- This suggests a spill over effect of demand from central to less central locations

Source: CIFI, OFS, CBRE, Jan 2024

Real Estate Market in the Lake Geneva region

Further decline in the residential vacancy rate in 2023

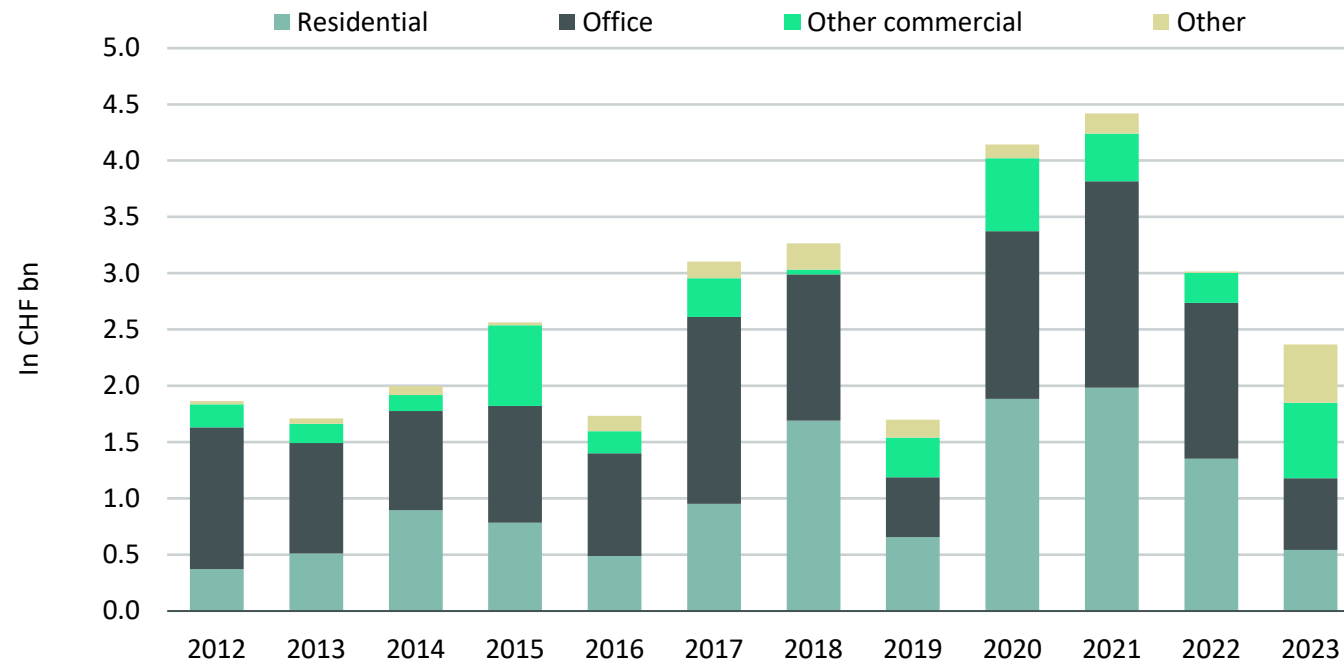

- The vacancy has fallen < the 1.0% mark in the canton of Vaud as of June 2023
- The rate remains very low in the canton of Geneva, albeit unabated new construction activity
- The undersupply situation is mostly visible in the large cities: in the canton of GE overall, Lausanne and its agglomeration as well as along the Geneva lake (Nyon, Morges, Vevey)

Source: StatVD, OCSTAT, CBRE 2023

Real Estate Market in the Lake Geneva region

Subdued investment activity in Geneva in 2023

- Real estate transactions volume in Geneva has further decreased in 2023, specifically on the two main traditional sectors: the residential and the office markets.
- The approx. CHF 500 million sale-and-leaseback of the Hôpital de la Tour in Meyrin has boosted the other commercial market.

Real Estate Market in the Lake Geneva region

New construction activity in Geneva high on an average, however is not sufficient

- Apartments under construction in Geneva represented approx 7,500 units in Q4 2023, i.e. Its lowest level in 5 years
- Despite above-average construction activity, the vacancy rate has kept below 0.5%
- Market absorption in the canton remains very quick due to the strong underlying demand fed by
 - internal demographic pressure
 - immigration

Real Estate Market in Switzerland

Rents on the rise

Source: UBS, Jan 2024

Real Estate Market in the Lake Geneva region

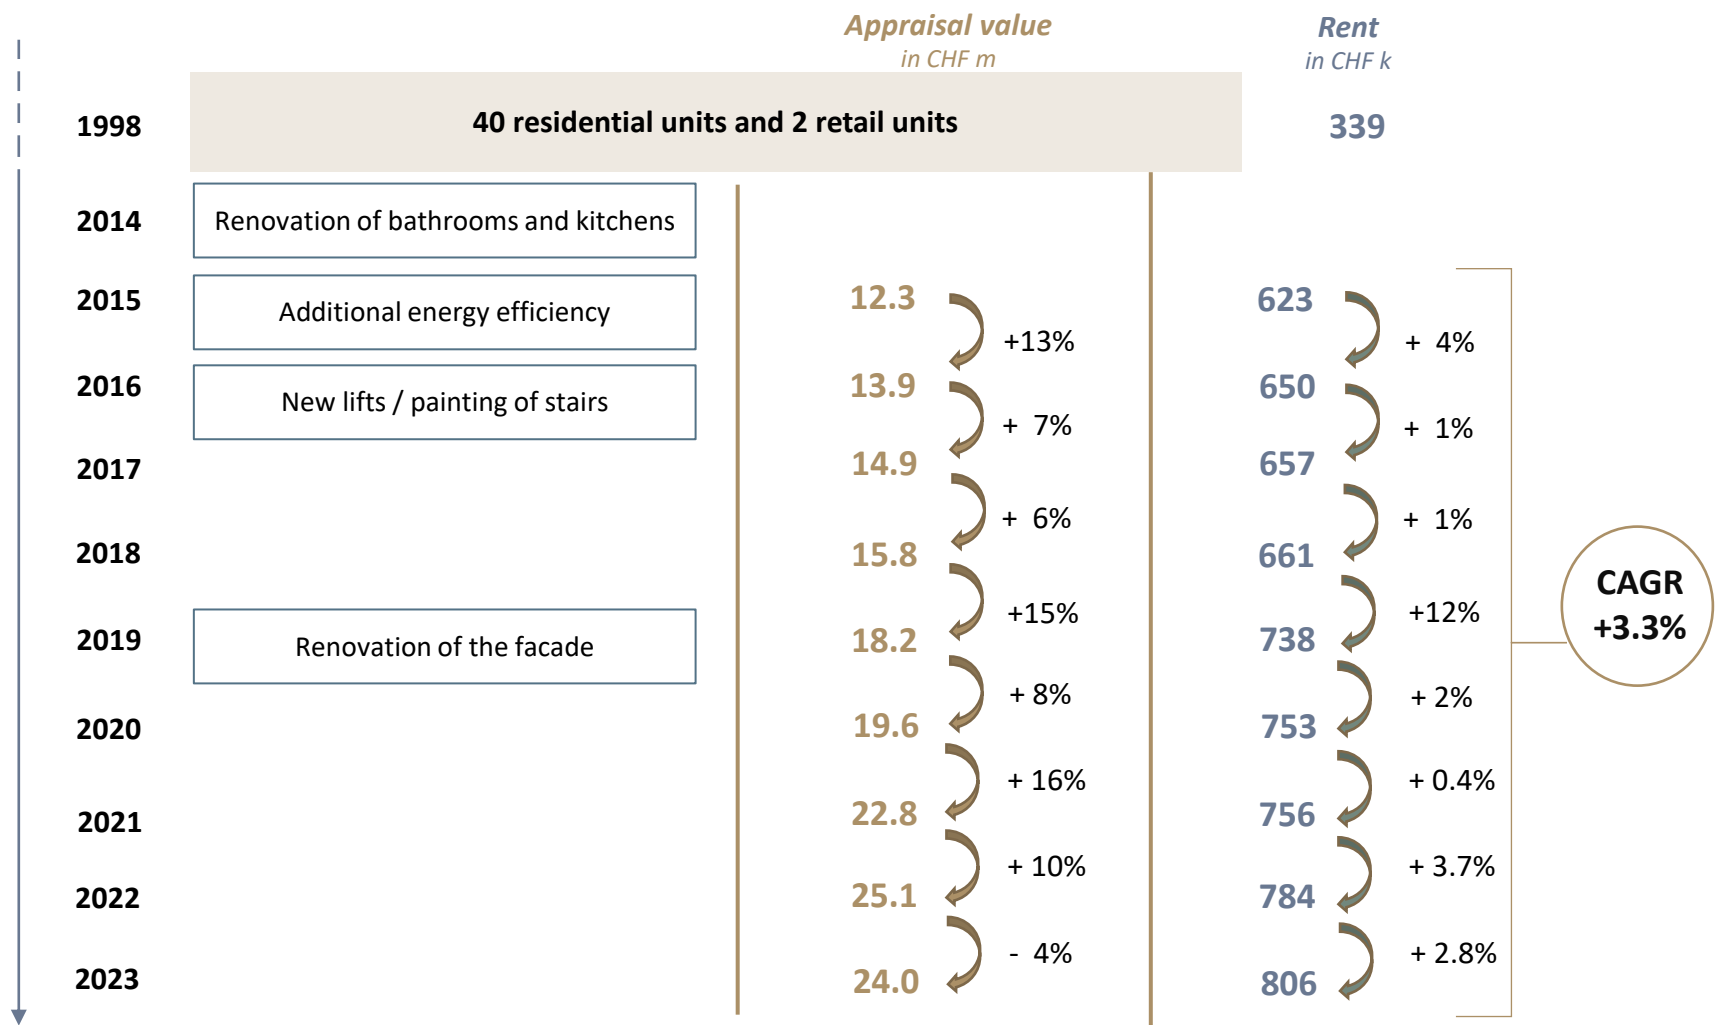

Market outlook: strong market fundamentals

- The downward trend in the residential vacancy is expected to continue in 2024, as construction activity is by far not offsetting demographic growth, which remains unabated
- The cantons of Vaud and Geneva continue to show the lowest affordability ratio for home ownership in CH and therefore remains supportive of the renting activity
- According to WuestPartner, market rents in this region are expected to grow by 3.4% in 2024
- The rise of the “indice de reference” of 0.25% in December 2023 suggests further rental increase of approx. +3% in Q1 2024
- Swiss market fundamentals remain strong, especially in the Lake Geneva region
- Residential portfolios have proven more resilient than commercial and mixed portfolios overall
